

December 12, 2016

CURRICULUM VITAE
RICHARD NORMAN JONES

Department of Psychiatry and Human Behavior 104 Plymouth Road
Warren Alpert Medical School Needham, MA 02492
Brown University
Butler Hospital
345 Blackstone Boulevard, Box G-BH
Providence, Rhode Island 02906
Work Phone: 401-444-1943
Email: rich_jones@brown.edu

EDUCATION

Undergraduate	The George Washington University, Psychology, BA, 1991
Graduate	Johns Hopkins University, School of Hygiene and Public Health, Psychiatric Epidemiology, Sc.D., 1998

ACADEMIC APPOINTMENTS

Associate Professor, Department of Psychiatry and Human Behavior, Warren Alpert Medical School, Brown University, 2013-present

Associate Professor (Research Scholar Track), Department of Neurology, Warren Alpert Medical School, Brown University, 2015-present

Associate Professor, Harvard Medical School (HMS), Beth Israel Deaconess Medical Center (BIDMC), Department of Medicine, Division of Gerontology, 2012-2013

Senior Scientist, Institute for Aging Research (IFAR), Hebrew SeniorLife (HSL), 2007-2013

Assistant Professor, HMS/BIDMC, 2007-2012

Instructor of Medicine, HMS/BIDMC, 2004-2007

Associate Scientist, IFAR/HSL 2003-2007

Senior Research Associate, 1997-2003

OTHER APPOINTMENTS

Major Administrative Leadership Positions	Director, Quantitative Science Program, Warren Alpert Medical School, Departments of Psychiatry and Human Behavior, Neurology, Norman Prince Neurosciences Institute at Rhode Island Hospital, 2013 - present
---	---

	Associate Director, Health and Social Policy Research, HSL/IFAR 2004-2013
	Director, Mental Health and Aging Research, HSL/IFAR, 2004- 2013
Committee Service	Faculty Committee, HSL/IFAR, Member 1997-2013 and Chair 2003-2006 Institutional Review Board, HSL, Member 2006-2013, Chair 2006-2008 Senior Faculty Council, HSL/IFAR, Member 2009-2013, Chair 2011-2012
National and International	Technical Expert Panel, <u>Statistical Methods for Quality Initiatives</u> , Center for Medicare and Medicaid Services Member 2005-2006, Technical Expert Consultation on <u>Functioning and Disability Measurement</u> , World Health Organization, December 2015
Editorial Roles	Senior Associate Editor, <u>Alzheimer's & Dementia: Diagnosis, Assessment & Disease Monitoring</u> , 2014-present Statistical Editor, <u>Alzheimer's & Dementia</u> , 2013-present Assistant Editor, Biostatistics. <u>Journal of the American Geriatrics Society</u> , 2009-present
Grant Review	NIH/ASG Study section, Standing Member, 7/2015-6/2019 NIH/NIA Special Emphasis Panel Scientific 2011/08 ZAG ZIJ- 2 (A1), Member, 2011-present Wellcome Trust, London UK, Peer Review Intermediate Fellowships, Ad hoc 2015 Health Research Board, Ireland, 2013 National Health and Medical Research Council (Australia), APP104510 (Project) Academy of Finland, Panel 6, Health and Society, 2010 NIH/NIH Program Project Special Emphasis Panel Scientific Review Group 2008 10 ZAG1 ZIJ-7(O1), Member, 2007- 2008 NIH/NIMH SRSP Review Group, Ad Hoc Member, 2007

HONORS AND AWARDS

Master of Arts *ad eundem*, Brown University, 2014
Top Reviewer Award, Journal of the American Geriatrics
Society, 2011, 2013, 2014
Exceptional Reviewer, Medical Care, 2007, 2008, 2010

Excellence in Tutoring, Harvard Medical School, Clinical Epidemiology AC701 First year medical students. 2009
NIMH Traineeship in Psychiatric Epidemiology, Johns Hopkins University, Pre-doctoral T32 award, 1995-1998

MEMBERSHIP IN SOCIETIES

Gerontological Society of America, 1998-present
Founding member Gerontological Society of America,
Measurement Statistics and Research Design (MSRD)
Interest Group, Chair 2002-2004
American Geriatrics Society, 2009-present

Latent Variable Methods Workshop

This is a website designed to provide information on upcoming workshops, as well as distribute all slides, handouts, data, and syntax used in previous latent variable methods workshops. Every summer we hold a three day workshop providing an introduction to latent variable data analysis.

<https://sites.google.com/site/lvmworkshop/>

QSP Workflow

This is a website devoted to distributing and discussing best practices for workflow in applied data analysis. Content is contributed by my working group at HSL/IFAR. We provide information on applied data analysis and workflow using Stata, R, Mplus, LaTeX, GraphViz, and other tools.

runmplus

runmplus is software for wrapping Mplus (Los Angeles, CA) within Stata (College Station, TX). The software is in the public domain (meaning it is freely distributed, not protected by copyright, and users may freely download, use, and modify). It is published in the Statistical Software Components (SSC) archive provided by the Research Papers in Economics (REPEC) archive at Boston College. The software is also distributed freely from my short course web site. I do not keep a record of users. Based on support and feature requests I know that runmplus has an international user base. The software streamlines the estimation of complex models using Mplus by facilitating data preparation and by including an output interpreter.

Jones, R. N. (2010). RUNMPLUS: Stata module to set up data for Mplus (Version S457154): Boston College Department of Economics. Retrieved from <http://ideas.repec.org/c/boc/bocode/s457154.html>

INVITED PRESENTATIONS

LOCAL

1. Applications of Modern Measurement in the Epidemiology of Aging / Invited Lecture Social Epidemiology Journal Club, Harvard School of Public Health, Department of Society, Health and Human Development (2006)
2. Latent Variable Modeling of Cognitive Reserve / Grand Rounds Beth Israel Deaconess Medical Center, Department of Medicine (2009)

3. Measurement and Methodology in Late Life Depression / Invited Lecture Harvard Medical School, Catalyst (2009)
4. Measurement Theory Considerations in Health Care Quality Assessment / Center for Gerontology and Healthcare Research, Brown University (2010)
5. Neuropsychological Profiles in Alzheimer's Disease and Cerebral Infarction: A Longitudinal MIMIC Model / Invited Lecture Harvard School of Public Health, Catalyst Biostatistics Seminar (2011)

GRANTS

Past

- 1997-2001 **TLC Telephone System for Alzheimer's Family Caregivers (Mahoney, DF)**
U01AG013255
Co-Investigator, Biostatistician
The goal of this study was to evaluate a technology based intervention to support family caregivers of patients with Alzheimer's disease.
- 2000 **Race, Ethnicity and Late-Life Cognitive Functioning (Jones, RN)**
R03 AG18690
Principal Investigator (\$25,000)
The aim of this proposal was to conduct an item response theory (IRT) based item bias evaluation of cognitive assessments of very old persons. Item bias analyses were conducted to test the null hypotheses that, while holding constant group differences in underlying cognitive ability, the cognitive test items are (a) free from bias according to race/ethnicity, and (b) free from bias according to level of educational attainment.
- 2000-2006 **Trial to Reduce Delirium in Aged Post-Acute Patients (Marcantonio, ER)**
R01 AG017649
Co-Investigator
The goal of this study was to evaluate a cluster-randomized controlled trial for the amelioration of delirium among post-acute care patients.
- 2001-2006 **PROGRAM HEAL - Activating the Lives of Older Adults (Morris, JN)**
R01 AG017931
Co-Investigator
The goal of this project was to evaluate an applied intervention to promote activity among nursing home residents using community volunteers.
- 2002-2011 **Harvard Older Americans Independence Center (Lipsitz, LA)**
P60 AG008812
Core Director, Biostatistics and Evaluation Core
The goal of this project was to support pilot and developmental studies on the physiology of falls and functional limitations among older adults.
- 2003-2006 **ACTIVE Phase II: HRCA Field Site (Morris, JN)**
U01 NR004507
Co-Investigator
The goal of this study was to evaluate the effects of a randomized controlled trial of cognitive training programs for older adults at 5 years after intervention.
- 2003-2006 **Evaluation of the Massachusetts Extended Care Career Ladder Initiative (Jones, RN)**
Commonwealth Corporation, Massachusetts
Principal Investigator
The goal of this study was to evaluate the impact of the Commonwealth Corporation's Extended Care Career Ladder Initiative using administrative data.
- 2003-2004 **Ageing and Course of Depressive Symptoms (Jones, RN)**
R03 AG021153
Principal Investigator (\$100,000)
The aim of this study was to evaluate age changes in depressive symptoms over a wide age

- range (50+) and to evaluate sex and race/ethnicity differences in depressive symptom trajectories.
- 2004-2009 **The CASCADE Study: End-of-Life in Advanced Dementia (Mitchell, SL)**
R01 AG024091
Co-Investigator
The goal of this study was to describe the natural course and family decision making at the end-of-life for patients with advanced dementia.
- 2004-2010 **HRCA/Harvard Research Nursing Home (Lipsitz, LA)**
P01 AG0004390
Core Director, Data Management and Analysis Core
The goal of this project was to mount a prospective community-based study of older persons and their experiences and risks for falls.
- 2005-2006 **Delirium and Survival in Post-Acute Care (Jones, RN)**
R03 AG025262
Principal Investigator (\$100,000)
The aim of this study was to evaluate the impact of the occurrence of delirium among older patients admitted to post-acute care on risk of death.
- 2005-2009 **Understanding Disparities in Mental Status Assessment (Jones, RN)**
R01 AG025308
Principal Investigator (\$710,000)
The goal of this study was to perform psychometric and statistical methods development for the detection of item bias, and to apply those tools to the detection of bias in the assessment of cognitive performance level across different race and ethnicity groups.
- 2006-2010 **Improving the Quality of Care in Nursing Homes (Morris, JN)**
R01 NR009071
Co-Investigator
The goal of this project was to evaluate a focused effort to integrate quality indicator performance data into care practice modifications in Massachusetts nursing homes.
- 2007 **Understanding Disparities in Mental Status Assessment – Supplement (Jones, RN)**
R01 AG025308-03S1
Principal Investigator (\$67,000)
The goal of this study was to extend methods and applied research for item bias detection to from mental status to depression.
- 2007-2010 **Developing a Culturally- and Clinically-Sensitive Depression Instrument to Improve Screening Among Minority Older Adults with Cardiovascular Disease (Yang, PI)**
NARSAD Young Investigator Award
This study examined measurement bias in widely used depression screening instruments. A major product of this research is a dynamic or adaptive test of the severity of depression capable of being administered by computer or paper-and-pencil, based on the PROMIS (NIH Roadmap Patient Reported Outcomes Measurement Information System) Depression item bank. My role is as mentor and co-investigator.
- 2008-2011 **ACTIVE Phase III: HRCA Field Site (Morris, JN)**
U01 NR004507
This is the 10-year follow-up of more than 3000 elders enrolled in a randomized controlled trial of three cognitive training interventions.
- 2007-2012 **Improving Cognitive Outcome Precision and Responsiveness with Psychometrics**

- (Crane, PK)**
R01 AG029672
Co-Investigator
This is a competing supplement to the Alzheimer's Neuroimaging Initiative. The goals are to improve psychometric test sensitivity to neuroimaging findings.
- 2008-2014 **Deriving and Validating a 3-Minute Diagnostic Assessment for Delirium**
(Marcantonio, ER)
R01 AG030618
Co-Investigator
This is a project engaged in developing an improved screening tool for delirium. We are making use of modern measurement methods (e.g. item response theory).
- 2009-2014 **Patient Reported Outcomes in Clinical Care of Patients with HIV (Crane, PK)**
U01 AR057954
Co-Investigator
This is a NIH Roadmap PROMIS (Patient Reported Outcomes Measurement Information System) project with the aim of developing and evaluating computerized adaptive testing of patient reported outcomes in an HIV clinic. My expertise in measurement bias detection has led to my being invited to lead analyses in PROMIS. The PROMIS initiative is developing standard, flexible, and dynamic assessment tools for the assessment of the outcomes of health care accessing the patient's perspective. My role is to evaluate methodologies to detect and assess the impact of measurement bias (differential item functioning) when responses are collected with dynamic (computerized adaptive) approaches.
- 2013-2014 **Big Questions in Cognitive Aging: An Integrative Analysis (Gross, A)**
R03 AG045494
Co-Investigator
The goal of this project was to use several large epidemiologic studies with longitudinal data that administered different neuropsychological test batteries and harmonize the measures across study and scale to a nationally representative sample of older adults.
- 2009-2014 **Validation of PROMIS in Diverse Cancer Populations (Potosky, AL)**
U01 AR057971
Consultant 2009-2014
The goals of this project are evaluate the Patient Reported Outcomes Measurement Information System (PROMIS) measures of depression, fatigue, physical function, and social function in cancer patients. This study will provide evidence about whether there are differences in the measurements of these outcomes across different population groups. My role is to lead the analysis of measurement bias in the PROMIS domains. The research will provide data to inform changes to improve the measures and ultimately enable their wider use in health research.
- 2010-2016 **Interdisciplinary Study of Delirium and its Long-Term Outcomes**
(Inouye, SK)
P01 AG031720
Project Leader, Project 4: The Role of Reserve in Delirium
This project, The Role of Reserve in Delirium, was part of a program project involving a prospective observational epidemiologic study of delirium among 500 surgical patients. This project concerns the role of reserve on the occurrence and consequences of delirium

following elective surgery. The major aims of this study are to: (1) develop both a specific and a general index of reserve that reflect brain reserve and cognitive reserve, and (2) evaluate the independent contribution of reserve facets to the risk for incident delirium, and (3) evaluate the independent contribution of reserve facets to the long-term consequences of delirium.

2010-2016 **Interdisciplinary Study of Delirium and its Long-Term Outcomes**
(Inouye, SK)
P01 AG031720
Core co-Director, Core C
The Data Management and Statistical Analysis Core processes, prepares, and analyses data for the Delirium program project.

Current

2015-2020 **Psychometric Integrative Technology for Cognitive Health**
(Jones, RN)
R01 AG051170
Principal Investigator
This application will address the conceptual and statistical equivalence of cognitive assessments between the HRS and international sister studies, and describe the extent to which comparisons are valid, and make recommendations to advance cognitive assessment in large scale research projects going forward. Without careful consideration of the conceptual and statistical equivalence of the different assessments, the data derived from these studies are not comparable. Effective public health planning and informative research requires harmonized cognitive assessment data from cross-national studies.
Current year direct costs \$559,559

2014-2019 **Development of a Delirium Severity Toolkit**
(Jones RN, Inouye SK, MPI)
R01 AG044518
Principal Investigator (1 of 2 PIs)
The goal is to develop a Delirium Severity Toolkit, a dynamic set of new measures developed with expert clinical judgment using modern psychometric theory to capture the severity of delirium in various phenomenological presentations.
Current year direct costs \$490,935

2008-2017 **Conference on Advanced Psychometric Methods in Cognitive Aging Research**
(Mungas, D)
R13 AG030995
Co-Investigator
This conference series is designed to promote the application of modern psychometric methods in research on cognitive decline associated with diseases of aging. I serve as an organizing committee member and as a faculty.
Current year direct costs \$43,919

2014-2019 **Evaluation of the Coping Long Term with Active Suicide Program**

- (Miller, I)**
R01 MH101129
 Co-Investigator
 This project will evaluate an innovative intervention specifically designed to reduce suicidal behavior in a high risk group of suicidal inpatients.
 Current year direct costs \$48,785 (sub only)
- 2014-2019 **RCT of a tailored walking program to reduce stress among pregnant women (Battle, C)**
R01 NR014540
 Co-Investigator
 The research involves a randomized controlled trial to contrast a prenatal walking program versus health education control among 152 pregnant women. Outcomes are depressive symptoms and maternal health and functioning, and infant neurobehavioral outcomes.
 Current year direct costs \$7,734 (sub only)
- 2014-2019 **Life Stressors, Impulsivity, and Adolescent Suicidal Behavior (Liu, R)**
R01 MH101138
 Co-Investigator
 This project will examine how life stressors, different neurocognitive/neurobehavioral dimensions of impulsivity and loss-related experiences explain how past suicide attempts increase risk for future recurrences in a multiwave longitudinal study of 150 adolescent inpatients.
 Current year direct costs \$58,562 (sub only)
- 2014-2019 **Mechanisms of circuit failure and treatments in patient-derived neurons in autism (Morrow, E)**
R01 MH105442
 Co-Investigator
 This proposal involves the study of patient-derived stem cells using induced pluripotent stem cell technology.
 Current year direct costs \$250,000
- 2015-2019 **Autism-linked endosomal mechanisms in neuronal arborization and connectivity (Morrow, E)**
R01 MH102418-01A1
 Co-Investigator
 Human mutations in endosomal NHE6 constitute a newly recognized, monogenic, autism-related disorder. The objective for this research proposal is to elucidate the mechanisms by which NHE6 mutations lead to defects in circuit development, and to test the ability of alkalinizing agents to normalize these mutant phenotypes in mouse in vitro and in vivo.
 Current year direct costs \$250,000
- 2015-2020 **Efficacy of a Prenatal Yoga Intervention for Antenatal Depression (Battle, C)**
R01 HD081868

This study will involve a randomized controlled trial to evaluate a gentle prenatal yoga class compared to a prenatal health education workshop in lowering depressive symptoms among pregnant women with antenatal depression.

Current year direct costs \$12,988 (sub only)

2015-2020 **Suicide Risk Reduction in the Year following Jail Release
(Johnson & Weinstock, MPI)**

U01 MH106660

Co-Investigator

The goal of this observational study is to recruit and follow a cohort of people following jail release for one year, and identify the incidence and predictors of suicidal behavior in this cohort.

Current year direct costs \$391,754 (sub only)

2015-2016 **Initiating and Maintaining Physical Activity in Depressed Individuals
(Abrantes & Uebelacker, MPI)**

R56 HL127695

Co-Investigator

This proposed intervention study seeks to promote the adoption and maintenance of exercise behavior among persons with depression.

Current year direct costs \$9,894 (sub only)

2015-2018 **Ecological Momentary Assessment of Behavioral and Psychosocial Predictors of
Weight Loss following Bariatric Surgery
(Bond & Thomas, MPI)**

R01 DK108579-01

Co-Investigator

The goal of this project is to recruit and follow a cohort of individuals who recently received bariatric surgery to address obesity, and identify the trajectory of weight changes and correlates variability in those trajectories.

Current year direct costs \$4,934 (sub only)

2014-2017 **Treatment decisions for Perinatal Bipolar Disorder
(Abrantes & Uebelacker, MPI)**

R34 MH103570

Co-Investigator

The goal of this study is to evaluate women's attitudes regarding treatment of bipolar disorder in the perinatal period, and to clarify the processes by which women make decisions to continue or discontinue medication treatment for bipolar disorder during this high risk period.

Current year direct costs \$176,390

UNIVERSITY TEACHING ROLES

- 2003-2006 Clinical Epidemiology (AC701), Harvard Medical School, 8 first year medical students
- 2006-2013 Clinical Epidemiology and Population Health (AC511), Harvard Medical School, 8 first year medical students
- 2006-present Summer Workshop on Latent Variable Modeling in Aging Research. *Every summer since 2006 I have led a 3 day workshop on latent variable modeling. The didactic material is based in aging research, but the international audience includes students, post-docs and faculty from diverse fields (medicine, psychology, sociology, statistics). The workshop focus alternates between measurement models (e.g., factor analysis) and longitudinal data analysis. Workshop materials are freely distributed via the world wide web (see Professional educational materials or reports, in print or other media).*
- 2014 – Present Seminars in methodology in the clinical neurosciences. Quantitative Science Program, Brown University. Seven tracks offered:
- QSP-01 Introduction to latent variable modeling
 - QSP-02 Measurement models, Item Response Theory and latent trait models
 - QSP-03 Longitudinal data analysis using latent variables
 - QSP-04 Design of Randomized Controlled Trials in Psychology, Psychiatry, Neurology, and the Clinical Neurosciences
 - QSP-05 Analysis of Randomized Controlled Trials in Psychology, Psychiatry, Neurology, and the Clinical Neurosciences
 - QSP-06 Seminar on advanced topics in controlled trials
 - QSP-07 Laboratory in data analysis using latent variables and structural equations.

HOSPITAL TEACHING ROLES

- 2001
- Study Design for Observational and Intervention Research. Geriatrics fellows and gerontology post-docs, HSL/IFAR and BIDMC
- 2003, 2004 Everything You Need to Know about Epidemiology and Biostatistics in 40 Minutes or Less. Geriatrics fellows and gerontology post-docs, HSL/IFAR and BIDMC
